

2020-2021 Gymnix Procedures

1. Appropriate warning signs will be posted in the gym.
2. Team size will be capped at 35.
3. Practices will be closed to all non-team members.
4. Team members will have their temperatures checked before every practice. If temperature is above normal (100 as per school policy), they will not be permitted to practice, sent to their respective dorm, and referred to the dean and/or nurse. The student may not be allowed to return until cleared by the school nurse or other medical professional.
5. Team members are asked to use cloth face masks during practices.
6. Team members will be divided into elevator/tossing groups. In an attempt to mitigate the extent of interaction, athletes' practice work and workouts will be limited to these groups as far as possible.
7. Regular hand washing will be encouraged, and hand sanitizer will be available in the gym for use.
8. High-traffic/high-touch areas will be frequently disinfected.
